SALE AT 12 NOON PROMPT

MACDONALD, FRASER & CO., LTD.

Auctioneers, PERTH

Telephone: PERTH 783-4

Telegraphic Address: "FRASER, PERTH"

CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum*

per Annum and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) If the option to re-test is given, the Purchaser may require the Single Intradermal Comparative Test for Tuberculosis. The Purchaser may also require the animal to be submitted to the Agglutination Test for Contagious Abortion at a laboratory approved by the Ministry of Agriculture, Fisheries, and Food, and if a test for Johne's Disease is required, it shall be the Complement Fixation Test for Johne's Disease to be carried out at the Weybridge Laboratory of the Ministry of Agriculture, Fisheries, and Food. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing and in the case of a test for Tuberculosis on an animal in an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable, and provided that in the case of the Test for Tuberculosis, it shall only be carried out after an interval of not less than thirty days following any previous Test for Tuberculosis.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at

the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.

(g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.

(h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale, whichever is the earlier date.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females born after 1st August, 1955, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal

that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

Warranted a server and stock-getter.

Blackton Bertie has won many prizes, and was reserve champion at Inverness when he was withdrawn for use in the herd. His calves in 1961 averaged £240.

REFERENCE TO SIRES

- (1) **DRUMMONDREACH SOVEREIGN** (15740), red—sire, Cruggleton Pilkington, dam, Drummondreach Augusta Adela by Calrossie Debonair.

Drummondreach Sovereign, red, a prize winner at Perth in 1960, was purchased for 520 guineas. He is from the good Garguston Augusta family that produced Garguston Resolute, the sire of a Palermo champion; Garguston Sovereign, the sire of Cruggleton Perfect; Drummondreach Advocate, a Perth supreme champion; and many others. His grandam is by Naemoor Immaculate. After two seasons in the herd, he has been sold privately to the young breeder, Mr. Ian G. Munro, Cyderhall, Sutherland. His calves have great weight for age, bone, and depth of rib.

- (2) **CALROSSIE FREEBOOTER** (17436), red, calved 11th December, 1959—sire, Banchory Orangeman (8074); dam, (41190) Glastullich Roselle by Calrossie Welcome (368471); g.-dam, (303445) Glastullich Elma Rosewood by Glastullich Fortress (321245); 3rd dam, (275218) Glastullich Rosewood Beres by Harviestoun Golden Glory (303224); 4th dam, (230676) Calrossie Rosewood Beatrice by Calrossie Drum-Major (297335); 5th dam, (110114) Calrossie Rosewood Beres by Naemoor Jasper (217761).

Calrossie Freebooter was senior champion at Perth in 1961, and was purchased for 6000 guineas. He is junior stock bull in the Ballathie Herd, and has been regarded by the critics as a very promising sire, having exceptional strength of bone, very smooth fleshing, and massive hindquarters. A Freebooter heifer calf was 1st in her class at all the summer shows in 1962.

- (3) **BANCHORY PERFECT** (11445)—sire, Chapelton Bright Fortune; dam, Banchory Ury Maid 20th by Banchory Kismet.

Banchory Perfect, dark roan, was purchased privately from Mr. Hugh Black for £2000. He is low-set and fleshy, has a wonderfully-mossy coat, and a good set of legs. His sire was purchased jointly by Banchory and Lawton for 3000 guineas, after being reserve for the Calrossie Cup at the 1956 Royal English Show, and is by Erimus Fokine (by Kirkton Challenger) out of Bright Blossom (by Cruggleton Balmoral). Banchory Perfect's dam is a good-milking roan, by a son of Bapton Eldarado.

- (4) **CALROSSIE TRADEWIND** (17456)—sire, Banchory Orangeman; dam, Calrossie Augusta Nicola by Calrossie Hyperbole.

Calrossie Tradewind, red, was used successfully at Calrossie for two seasons before being sold privately in August, 1961, to Mr. Charles Ewald, Fairacres Stock Farm, Minnesota, U.S.A. In 1961, one of his sons, Calrossie Impact, was 3rd at Perth in the youngest class, also one of the champion group of five, and sold at 320 guineas to Señor J. Elordy e hijos, Argentina. His mother is one of Calrossie's best, and his full brother, Calrossie Trademark, is stock bull at Las Heras, Argentina, with Señor E. Santamarina, having been purchased for £5040 from Mr. Schofield. A very good full sister is in the herd of Col. J. M. Wood, Heigholme Hall, Hull, and another good full sister is retained.

- (5) **ARMAGH EIGHTSOME REEL (P.) (174)**—sire, Antrim Highland Fling (P.); dam, Armagh Bessie Alannah (P.) by Armagh Sergeant Major (P.)

Armagh Eightsome Reel (P.), roan, was imported from Australia. Bred by Mrs. I. E. Killen, of the well-known Antrim and Armagh Studs, he contains the very best blood lines. His grandsire on his sire's side is the 3000-guineas Perth supreme champion, Balbithan Highland Leader, while his grandsire on his dam's side is by the then record-priced, 10,000-dollars Glen Knolls Major 2nd (P.), imported from U.S.A. He is a bull of tremendous size and substance, with good bone and fleshing.

- (6) **BURNTON BANDOLIER (16861)**, white—sire, Beaufort Chevalier; dam, Burnton Eliza 5th by Calrossie Crocus Count.

Burnton Bandolier, winner of the Casares Cup at the Royal Highland Show in 1960, was 1st at Perth in 1961, where he was purchased for 3000 guineas. His sire, Beaufort Chevalier, is by the good-breeding Beaufort Bulldozer, and cost 2900 guineas at Perth. He bred well in the Aldie Herd before going to the Anderson brothers. Burnton Bandolier's dam is one of the best females at Burnton, tracing back to the Naemoor Elijas and Naemoor Jasper. A well-fleshed, well-grown bull, with good bone and nice quality of hair, he has his sire's excellent head and character. His full brother, Burnton Skybolt, was reserve male champion at the Royal Highland Show in 1961, and was sold at Perth in 1962 for 1200 guineas.

- (7) **BANCHORY ORANGEMAN (8074)**—sire, Gallant Marshal; dam, Banchory Orange Pet by Millhills Zeus.

Banchory Orangeman, red, with great bone and ruggedness, has been the most influential sire in the Shorthorn breed in recent years, and with his background of Cruggleton Perfect, he has suited the Calrossie females well. His sons sold at Perth in the past four years have kept up a high average—1959, £2243 for three, with a top of 5200 guineas; 1960, £1378 for three, with a top of 2400 guineas (also, Scotch Mist and Tradewind retained for use); 1961, £5233 for five, with a top of 13,500 guineas; and 1962, £1408 for seven, with a top of 3600 guineas. His grandsons are now leading the way, with such bulls as Glamis Trademark and Glamis Benefactor, both Perth supreme champions; Calrossie Scottish Soldier, Perth junior champion; and Banchory Utmost, the good, white calf bred by Mr. Hugh Black. At seven years old, Banchory Orangeman still looks well, and has that look of masculinity denoting the real stock bull.

- (8) **CALROSSIE SCOTCH MIST (17455)**, roan—sire, Banchory Orangeman; dam, Calrossie Princess Madge by Calrossie Paramount.

Calrossie Scotch Mist is almost pure Cruggleton in his breeding, with the exception of Calrossie Paramount, the 8500-guineas Perth supreme champion by Calrossie Welcome from a Broadhooks dam by Kirkton Baronet, thus providing a strong link with Calrossie's most classic blood lines. His grandam, Princess Marion, cost 1050 guineas at the Cruggleton Dispersal Sale, and is sired by the good-headed, 3000-guineas Cruggleton Aircraft. At Perth last February, his first three sons averaged £1617, and included the junior champion, Calrossie Scottish Soldier, sold at 4000 guineas to Tempel Farms, Illinois, U.S.A. He has also left a nice bunch of bulls with Mr. Hugh Black at Banchory, where he was on loan for several months. One of those, the great white calf, Banchory Utmost, has recently been sold to the new breeder, Mr. F. Speak, Lockerley, Hants., at a high figure.
